

WorkforceHub™

An HR management system designed for small business employers.

WorkforceHub connects time and labor with core HR in one scalable solution. It addresses a vital gap faced by small employers struggling to manage complex, ever-changing labor requirements in an equally fluid and unpredictable business environment.

WorkforceHub Features

Timekeeping

Track punches and approvals, tie work time to jobs, enforce meals/breaks, track PTO accruals with a system that integrates with biometric and prox card time clocks.

Scheduling

Build schedules based on business need, skills required, labor laws, employee preferences and more.

Recruiting and Applicant Tracking

Attract and hire quality employees in less time. Post job openings, manage applications and collaboratively screen and track candidates.

HR Management

Automate onboarding, performance reviews, benefits enrollment and more. Store documents securely, set alerts and administer employee surveys.

Optimize Time and Labor

Save time and money by optimizing the entire payroll chain from scheduling to clock-in to paystub access.

Streamline Shift Planning

Easily fill open shifts with a virtual trade board, improve schedule adherence and ensure proper shift coverage.

Speed Up Hiring and Onboarding

Quickly access a larger pool of qualified candidates with less effort. Then move through screening, interviewing, background checks and onboarding in record time.

Automate Recordkeeping

Be ready at any time to verify compliance with FLSA, EEOC, certification standards and payroll requirements.

Foster Employee Engagement

Alerts, messages, pulse surveys, company directory, recognition wall, suggestion box, and rewards encourage employees to get involved and help unify distributed teams.
